LUBRICANTS PRODUCTS GUIDE

PASSENGER CARS AND LIGHT TRUCKS

Power Prima 0W16 / 0W20 / 0W30 / 0W40 / 5W20 / 5W30 / 5W40 SP
Fully Synthetic Engine Oil – Exceptional Performance matching the latest API standard

Power Synova 0W16 / 0W20 / 0W30 / 0W40 / 5W30 / 5W40 SN
Fully Synthetic Engine Oil – High Performance for modern engines

Power Synth 5W30 / 5W40 SN
Fully Synthetic Engine Oil – Optimum Quality for the latest generation of high performance cars

Power Synth S 10W30 / 10W40 SN
Synthetic Engine Oil – High Quality for extended drain interval

Power Plus 10W30 / 10W40 / 15W40 / 20W50 SL
Premium Engine Oil – High Quality Oil for all operating conditions

HEAVY DUTY DIESEL ENGINE LUBRICANTS

Power Optima 5W40 / 10W40 / 15W40 / 20W50 CK-4
Synthetic Diesel Engine Oil that delivers significant improvements in wear protection, deposit control and resistance to breakdown under high temperatures

Power Thrust Plus 15W40 / 20W50 / SAE 50 / SAE 40 / CJ-4 / CI-4 / CH-4
Quality Diesel Engine Oil for superior wear protection

Cadek 10W / 30 / 50 CF
Multipurpose Heavy Duty Diesel Oil with superior protection from rust and corrosion

Power Force 10W / 15W40 / 20W50 / 40 / 50 / 70 CF / SF
High-performance crank case oil for diesel engines application

TRANSMISSION FLUIDS

Trans Max + DEX VI
Fully Synthetic Automatic Transmission Fluid for extended transmission life

Trans Max DEX III
Automatic Transmission Fluid designed to provide superior performance

Engine Oils

Transmission
& Gear Oils

Hydraulic Oils

Engine
Coolants

أداء فائق. يرتقي لتوقعاتك
SUPERIOR PERFORMANCE. EXPECTED.

2 AND 4 STROKE ENGINE OIL

Power Ride JASO FB / YC

2-Stroke Engine Oil for air cooled engines providing long term protection

Power Bike 10W30 / 20W40 / 20W50 JASO MA / MA2 / SL

High Performance 4-Stroke Motorcycle Engine Oil

Power Glide 10W40 / 250W40 NMMA FC.W

Fully Synthetic Recreational Engine Oil

Power Marine 2T – TCW 3

outboard, 2 cycle engine oil formulated with high performance base stocks and premium quality additives.

COOLANTS

Ultra Cool Plus

Ethylene Glycol-Based Antifreeze and Engine Coolant designed for advanced cooling performance

Ultra Cool 40% / 50% / 100%

Ethylene Glycol-Based Engine Coolant that provides a high degree of protection against corrosion

INDUSTRIAL LUBRICANTS

Hydra Max 10W / 32 / 46 / 68 / 100 / 150 / 220

High Performance Hydraulic Oils with superior stability and enhanced corrosion control

Gear Max SP 68 / 100 / 150 / 220 / 320 / 460

Heavy Duty Industrial Gear Oil providing outstanding thermal stability and high load-carrying ability

Press Max RCP 68 / 100 / 150 / 220

Reciprocating compressor oil to be used in circulation systems of plain and rolling bearings operating at high temperatures

Press Max RTY 32 / 46 / 68 / 100

Specialized oil developed to provide lubrication for rotary air compressors for stationary and mobile applications

Meta Max 32 / 68

Multipurpose oil which is recommended in turning, milling, reaming, drilling, shaping, broaching of a wide variety of metals

AUTOMOTIVE GEAR OILS

Gear Max 90 / 140 / 80W90 / 85W90 / 85W140, GL4, GL5

High Quality Automotive Gear Oil for differentials, manual transmissions, axles and other automotive gears

BRAKE FLUIDS

Brake Max DOT 4

High-Quality Brake Fluid formulated specifically for hydraulic brake systems

FLUSH OIL

Flush Max

Premium light viscosity base stock designed for efficient flushing of engines and other automotive equipment or machinery in the oil draining process prior to refilling with new engine lubricants

GREASES

Classic Greases MP0 /MP1 / MP2 / MP3

Multipurpose Lithium based greases designed to meet the lubrication requirements of all automotive and selected industrial grease applications

Classic Plus Greases EP2 / EP2 HT / EP3

Lithium based greases for high pressure and high load applications

MARINE LUBRICANTS

Bahar 630 / SAE 30 CF

High performance, alkaline based marine system oil recommended for use in high output cross head marine diesel engines requiring system oil for piston cooling

Bahar 1230 / 1240 / 1250 SAE 30 / 40 / 50 CF

High performance, highly alkaline trunk piston engine oils ideal for lubrication of the crankcase and cylinder of trunk piston turbo charged marine diesel engines operating under severe conditions on distillate fuels

Bahar 4040 / 4050 SAE 40 / 50 CF

Premium marine oils recommended for use in medium speed trunk piston engines

Bahar 7050 SAE 50 CF

cylinder lubricating oil recommended for use in cylinder lubrication of cross head marine and stationary diesel engines

About Emarat

For nearly 40 years, Emarat has manufactured and marketed high quality lubricants. The combined resources and technology of Emarat and its partners –ExxonMobil & BP at MELUBCO (Middle East Lubricants Company) Blending Plant in Jebel Ali, Dubai, United Arab Emirates produce powerful lubricants with large competitive advantage. Our knowledge of local business environments, and our broad experience of operating in a wide array of countries, ensures that we produce technologically advanced, world-class products for our customers on a global scale.

Emarat's oils are formulated to meet API, ILSAC, GSO, ACEA, ASTM and JASO standards. They are manufactured in a plant certified to ISO 9001:2015, ISO 14001:2015, OHSAS 18001:2007 and IATF 16949:2016 and have received ESMA certification.

Emarat offers a wide range of lubricant products as well as a team of dedicated industry experts who can work with you on customized solutions to meet the diverse needs of the automotive and industrial sectors.

To find out more about the entire product range, including full specifications and downloadable brochures, visit the Emarat website at emarat.ae and find Lubricants under the Commercial Products section.
